All Referendums Approved! Counties Support Current Gaming Operations

On November 5, 2002, by referendum, voters in 11 counties indicated their strong reaffirmation and approval for the continued operation of casinos in their communities. The citizens of each county where casinos are located recognize the significant impact of the gaming properties and how they add value to the state's entertainment and tourism industry; their vote was an overwhelming recognition of the casino's importance to:

- Preserve thousands of good paying jobs
- Provide millions of dollars in charitable giving to thousands of worthwhile causes
- Provide millions of dollars in tax revenue to be used in visionary ways

Continue providing highly regulated, legal, safe, fun, affordable entertainment venues that are committed to responsible gaming.

No: 2,255 = 38%

April 8, 2008

Jasper County

Defeated

Yes: 2,614 = 38%

No: 4,252 = 62%

2010

2010 Casino Referendum Votes Pass By an Average of Over 78%

On November 2, 2010, by referendum, voters in 14 counties overwhelmingly approved the continued operation of casinos in their communities.

Each county passed by a percentage equal if not better than the previous referendum vote in 2002. The average approval was 74% in 2002 as compared to 78.8% in 2010.

Once again, this is a very strong indicator of how the citizens in these counties view their casinos as being a viable part of Iowa's economy, such as:

- Providing thousands of good paying jobs
- Generating an annual economic impact of over \$1 billion
- Positively impacting Iowa businesses by purchasing over \$200 million in Iowa-based products and services
- Funding thousands of charitable request by providing millions of dollars annually in grants
- Continuing to provide highly regulated, legal, safe, fun, and affordable entertainment venues that are committed to responsible gaming

Citizens in counties with gaming facilities are required to vote every 8 years to continue operations. The increased approval for gaming venues begets legislators to re-look at the mandated vote requirement.

The unofficial county-by-county results are as follows:

<u>Blackhawk</u> <i>Approved</i> Yes: 32,752 = 77% No: 9,941 = 23%	10,676 = 74% No: 3,790 = 26%	554 = 14%
